

NORTHAMPTONSHIRE MINERALS & WASTE CORE STRATEGY EXAMINATION

INSPECTOR'S NOTE TO NCC

fao Mr Mark Chant, Head of Planning Policy

Thank you for your letter dated 6th May explaining what you intend to do with respect to reviewing the Council's position on its evidence base and other matters.

I agree to the extension of the adjournment of the Examination until the end of this month.

Please could you respond to me by 1st June with either:

- the decision you propose to take with respect to the future course of the Examination; or
- the decision you propose recommend to your Members; or,
- in the event that you are not at that time in a position to make or recommend such a decision, an update on the current position, with an indication as to how much additional time you may require.

If, in the interim, you want to seek clarification from me on any matter relating to my concerns or procedural aspects of the Examination, please contact me through the Programme Officer. If the Council considers that a formal Exploratory Meeting would be of assistance, I am prepared to call one.

Jonathan G King
Inspector

10th May 2009
