Dear Councillor Smith,

Re: Northamptonshire County Council Minerals Plan - Allocated site in Milton Malsor for potential soft sand extraction

The Parish Council is writing regarding the above matter which was raised at the County Council Cabinet meeting held on 9th December 2008.

In your summary you stated “ ***the Stoke Albany sites cannot be worked for sand extraction due to environmental reasons***”. Members would be grateful to receive from you details of what these environmental reasons actually are in relation to these sites.

Members request your written response to the above within the next 10 working days.

Yours sincerely

Mrs. A. Addison
Clerk to Milton Malsor Parish Council
