

## Milton Malsor Parish Council

As a Parish Council we have received correspondence advising us of the following:

---

### Proposed new employment site Junction 15 of the M1

Harworth Group are now launching a public consultation exercise ahead of progressing with a planning application for the above mention site.

They have also launched a website to provide the community with information and they will be sending out a newsletter to those living near to the site.

On **11th December** they will be holding a drop-in consultation event in the **Spencer Suite at the Hilton Hotel**, Collingtree where people can visit to learn more about the plans and speak to the project team.

There will be a preview session from 2 - 3pm for local 'elected' representatives, this will ensure that these representatives have the opportunity to speak directly with the team members involved in the project.

The Consultation will then be **open to members of the public from 3 - 7pm.**

**The Parish Council has a number of objections and questions with regards to this proposed development, and will be working with other Parish Councils to fight this.**
