Stop Press to All Residents

Stockwell Way Proposed Housing Development - It's NOT Going To Happen!

In our previous newsletters we reported on the planning application SNC received for the development of 25 residential dwellings on land outside the village confines off Stockwell Way.

The Parish Council and over 200 residents wrote strongly objecting to this residential development, which SNC then refused planning permission in support of its own policies. The applicant then lodged an appeal to the Secretary of State against this decision made by SNC.

Having considered all the evidence the Inspector **has now dismissed this appeal** so this means the proposed housing development for 25 dwellings **is not going to happen.**

The Inspector's report dated 21/2/2011 can be seen under the news section on our website: www.miltonmalsorparishcouncil.org.uk

The Parish Council extends it's grateful thanks to all residents who took the time to write objecting to this proposed housing development, without your help and support we would not have won the day.

This is a resounding victory and one which sends out a strong message to developers who have intentions of concreting over our village.

Rest assured the Parish Council does remain committed to strongly opposing unwanted and unnecessary developments being imposed in our village and the damage that they would cause to our community. Let us now look forward to continuing our everyday lives in Milton Malsor, where we are all privileged to live, without the **threat of unnecessary housing developments being imposed on us.**

Ann Addison

Clerk to the Council
24th February 2011
